

Six Reasons to Deploy WEKA in Your Financial Services Environment

The WEKA data platform is ideal for delivering the highest performance to large-scale CPU and GPU-based computing, enabling the delivery of real-time analytical insights that account for fast-changing market dynamics.

Delivers Higher Performance Than Local-Drive SSDs

Enables Elastic Public Cloud for Peak Compute Demands

Best TCO Leveraging NVMe for Performance and HDD for Capacity

Dramatically Improves Wall Clock Time

On-Demand Scalability and Economy

Single Storage Platform for Entire Dataset
